Author's Proof

Before checking your proof, **please see the instructions below**.

- Carefully read the entire proof and mark all corrections in the appropriate place, using the Adobe Reader commenting tools (**Adobe Help**). Do not use the Edit tool, as direct edits could be missed (the PDF was blocked for editing to prevent this); annotate your corrections instead.
- Provide your corrections in a single PDF file or post your comments in the Production Forum, making sure to reference the relevant query/line number. Upload or post all your corrections directly in the Production Forum to avoid any comments being missed.
- We do not accept corrections in the form of edited manuscripts or via email.
- Do not provide scanned or handwritten corrections.
- Before you submit your corrections, make sure that you have checked your proof carefully as once you approve it, you won't be able to make any further corrections.
- To ensure timely publication of your article, please submit your corrections within 48 hours. We will inform you if we need anything else; do not contact us to confirm receipt.
- Note that the column alignment at the bottom of each page is not ensured during this Author's Proof stage. The columns will be correctly aligned in the final PDF publication. You may therefore notice small differences in the structure of the Author's Proof PDF versus the final publication.

Do you need help? Visit our **Production Help Center** for more information. If you can't find an answer to your question, contact your Production team directly by posting in the Production Forum.
